I see no problem from OITA's perspective with sharing these slides with the Hill.

Chad and Troy,
State department would like to share the slides we used in Colombia with the House Foreign Affairs Committee. We have no concerns with this but wanted to check with you both first.
Please advise.

Thanks,
Nancy

Subject: Colombia glyphosate slides

Dr. Beck,
Our DAS briefed House Foreign Affairs Committee majority and minority staff today on State Dept counternarcotics programs in Colombia. They had numerous questions about the possibility of resuming an aerial coca eradication program with glyphosate. Majority staff asked for the most current US info on glyphosate, so we will direct them to EPA's December 2017 draft risk assessment.

We wondered if EPA would be willing to let us share with those HFAC staffers the set of PowerPoint slides that you and Anna briefed to the Colombians. Those slides obviously weren't intended to go to Congress, but they provide such a clear, crisp summary of the science and would help the staffers understand the USG position.

Really appreciate your consideration of this request.

Best wishes from Bogota,

Rob
